

No Touch

Request to Exit Station

Main Features of the product

- Proximity Sensor for "No Touch" operation.
- LED indications.
- Buzzer for operation tone.
- Relay Output-1 normally Open..
- Array of stylish fascia in glass and metal.
- Detection range up to approximately 40-50mm.
- Mounting on Indian standard 2 Module electrical box/European single gang box.

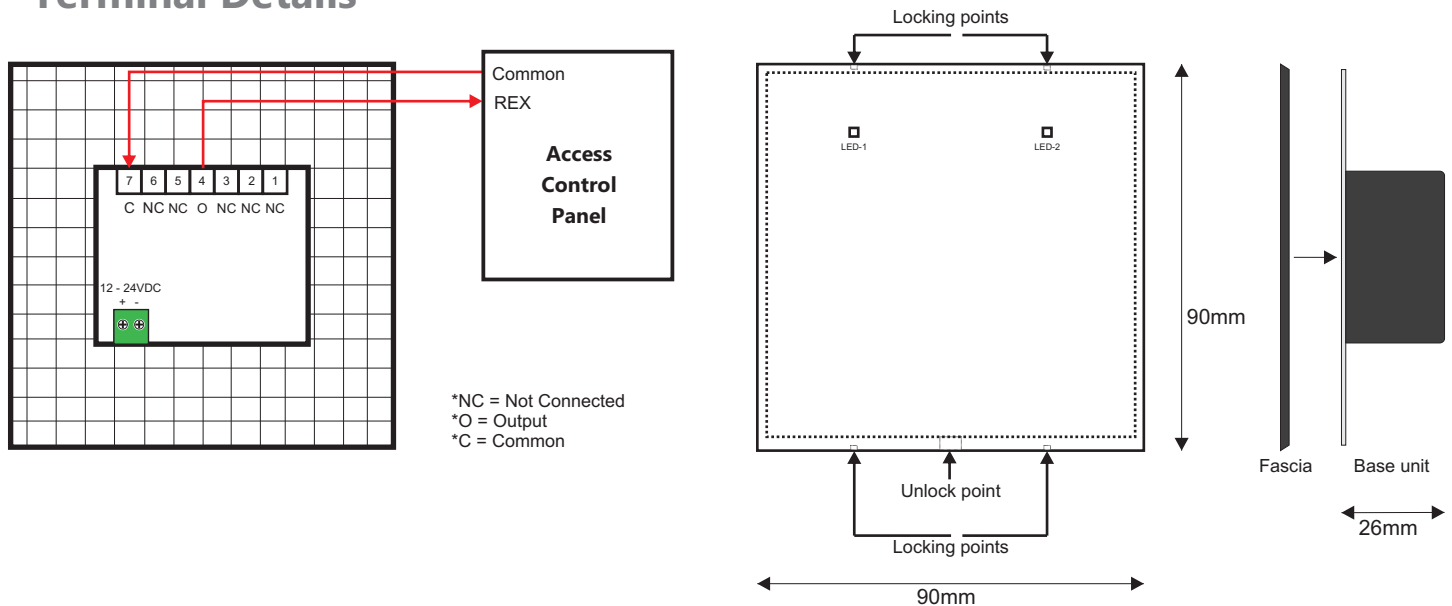

REX-01 is a No Touch Request to Exit Station, with a Proximity sensor. The detection range is approximately 40-50 mm. To operate the switch, Place your hand in proximity to the fascia surface.

A tone will sound indicating that the relay has been activated. Relay will activate for 1 sec. "Locked" Indication will turn off and "Released" indication turns ON for 5 secs. Exit request signal is transmitted to the connected Access Control Panel.

Areas of Application

- Office
- Industries
- Conference rooms
